

Large private property backing directly up to approximately 40 acres of undeveloped land, providing excellent privacy and a peaceful setting.

Full in-floor radiant heat throughout the entire home including garage.

Huge garage with ample space for vehicles, storage, workshop use, or recreational equipment.

Greenhouse on the property.

Established apple tree garden/orchard area.

Large storage shed included on the property.

Property includes a small private four-wheeler/dirt bike track area for recreational riding.

Custom Features & Built-Ins:

Custom live-edge shelving throughout portions of the home.

Built-in floating bed upstairs can stay with the home if buyers would like it included.

Custom double bunk beds with integrated rock climbing walls in the downstairs basement bedroom can stay if desired.

Hanging bunk bed in the downstairs bedroom can also stay with the home if buyers want it included.

Built-in/custom desk in the master bedroom can stay if desired.

Many of the custom woodwork and built-in features can either remain with the home or be removed depending on buyer

Finished basement space includes a highly secure concrete vault/arms room with vault door heavily reinforced concrete construction.

One of the most unique features is the custom conex building:

Constructed from three 40-foot high-cube conex containers professionally welded together into one large steel structure.

Equipped with full electrical service and natural gas.

Extremely versatile space suitable for storage, workshop use, equipment storage, business use, hobby space, or future customization.
