

NOTES:

- 1) Proposed land uses are recreational, residential, agricultural, and commercial.
- 2) Building Setback - A setback of 20 feet is required from all street rights-of-way unless a lesser standard is approved by resolution of the appropriate Planning Commission.
- 3) Front 10 ft. of the building setback adjacent to rights-of-way is also a utility easement. No permanent structure shall be constructed or placed within a utility easement which would interfere with the ability of a Utility to use the easement.
- 4) Roads must meet the design and construction standards established by the Borough in order to be considered for certification and inclusion in the road maintenance program.
- 5) The Kenai Peninsula Borough Plat Committee approved an exception to KPB 20.20.180 for Lots 18 through 21 on February 23, 2004.
- 6) No structures permitted within the panhandle portion of Lot 8.
- 7) **WASTEWATER DISPOSAL:** Soil conditions, water table levels, and soil slopes in this subdivision have been found suitable for conventional onsite wastewater treatment and disposal systems serving single-family or duplex residences and meeting the regulatory requirements of the Kenai Peninsula Borough. Any other type of onsite wastewater treatment and disposal system must be designed by a professional engineer, registered to practice in Alaska, and the design must be approved by the Alaska Dept. of Environmental Conservation.
