 Remarks: SEPTIC PERMIT S94063001

Zoning Permit Application

Submit this application with the permit fee, and a drawing of the property that shows existing buildings, proposed buildings, wells and other water sources, and components of sewage disposal systems. The drawing must also show distances from the property lines to buildings, water sources and sewage disposal systems, as well as the access to the property.

If this permit is for a structure that is intended for human habitation, a plan for sewage disposal must also be submitted.

This permit is valid for two years from the date of issue. If the exterior of the structure has not been completed in that time period, a new permit must be issued before further construction takes place.

The Custer County Zoning Resolution requires structures be located a minimum of 50 feet back from all property lines, including roadways, and structures be no higher than 25 feet. AVG FROM GRADE HIGH POINT & LOW PT FROM GRADE

This information is complete and accurate to the best of my knowledge.

I agree to maintain detailed purchase and receipt records for this project, and will make them available for audit and photocopying by the Zoning Office. I further agree to pay Custer County the one percent (1%) Use Tax for any items purchased outside of Custer County, upon which no local Sales or Use Tax was paid. I understand that if I owe less than \$300.00 in Use Tax during the calendar year, the tax is due by January 20 of the following year. If my tax owed reaches \$300.00 during the calendar year, the tax is due by the 20th of the month following the month in which the \$300.00 is reached. Alternatively I may estimate the tax owed as 1% of the estimated cost of the materials, or, if I anticipate owing more than \$300.00 in tax, I may submit \$300.00 tax with this application and pay the remainder within 60 days after the project is finished. I also understand penalties and interest are due on my Use Tax if I fail to pay on time.

I acknowledge that electrical and plumbing work require State permits and inspections.
