

RV SITES LAYOUT

This is a map of how we had used the property for Rvs

1. Nice private spot tucked off on the side with room for private camp fire area and has 50 amp hookup.
- 2 & 3. Both of these back up to the grassy area and both can hook into the sewer, they can plug into the 50 amp by the shop.
4. This one is nice and private and you can hear the creek as it's right next to it. This one has a 30 amp hookup.
5. The one is can be located right next to the bunk house, and has a 30 amp hookup.
